WEDNERDAY, DECEMBER 24, 1902.

your Journal or on the margin of The Journal. Up to this date, your

said, are preparing to come to America tion of this hemisphere as dangerous to tongue, between the hoofs and around and will settle in Colorado, New Mexico

Washington, after the expiration of his term of office.

THE statement is made that a single transatlantic liner recently sailed for Europe carrying money orders aggregating \$460,615, representing Christmas gifts sent abroad by people of the United States to friends in the old countries.

THE seizure of barrels containing ble interest as to the outcome. The cember 2, 1823. birds were sent by express from the western part of the state marked "Christmas goods," and consigned to parties in Chicago. The fines if collected according to law would amount to several thousand dollars.

THE soft corn district is a rather indefinite term, nor can we describe that lasting. That is to say, the day is com are spots in this district, however, where Snyder has reasoned it all out and while often not far distant where there is not process, the faith that is in him seems much sound corn. The frost of September 13th and 14th was a very fickle jade and struck hard in some townships and "seems merely a series of destructive farmer hard and let his neighbor go free. are present from the beginning-that There is no accounting for the taste of a

Monday's Omaha World-Herald says: "So far nothing of a definite nature looking to a settlement has been heard by the strikers-the last word being that President Burt will return home the last part of this week, and his reply the living protopiasm, into the relatively to the ultimatum of John McNeil that dead fatty or connective or cartilage or the Southern Pacific boilermakers would bone tissue—the characteristic, as the effected, will become known. It being great Russian biologist, Metchnikoff, has at his request that action along that line be postponed until his return, the at least a clue to a complete account of strikers look for overtures of a settlement. But in the meantime, not a bit of their vigilance is being relaxed, and preparations are going ahead with them as if the strike were to last indefinitely."

THE U. S. Civil Service Commission reports that for the year ending June | the arrest of death, the prevention of old 30, 1902, there were 14,983 persons ap- age, the preservation of youth." at Beatrice, Grand Island and Omaha, encounter too many cockles. A meet- introduced and steared past first and ing will be held at Lincoln, Neb., Janu- second readings." The letter from Mr. ary 22, for the purpose of advancing the Babcock of Columbus to the council movement in Nebraska. The farmers' gave them a statement of the condition grain association at Benedict, Neb., the of the Nebraska Central Irrigation Co. association at Thayer, Neb., and at and asked that an opportunity might be Shelby, Neb., have signified their intention of taking stock in the new association and they will be the basis of the the power and to show that they have movement in this state. The association | been acting conservatively and on busiexpects to start with thirty elevators in ness principles. Mr. Babcock stated Kansas, fifteen in Oklahome and ten in Nebraska.

THE supreme court of Nebraska has invalid. The case came from Cass county, where Mrs. Eaton was married shortly after having been divorced. Mr. Eaton months given by Nebraska law for either party to a divorce suit to appeal must lance before either may legally marry. It also holds, however, that where they have lived together illegally, if the relation continues after the six months have expired, the marriage will be binding under the common law.

> one bear a weight all day long, does he not attribute his consequent headache to the heavy burden he has borne? It seems without elaborate thinking we could conceive of the results following has done all she could to protect and

prolong the usefulness of the eye. No earthly architect ever yet planned a structure that would not yield, crumdust more rapidly and surely than need ise how much one part is sustained or overthrown by another. One tiny muscle is potent enough to disturb the whole economy, especially if intercurrent diseases exist in addition to "eye

An Italian prince who had a Sicilian cook was once traveling to his provincial estates, taking with him his cook, together with his entire kitchen a point where the narrow path along the precipice turned the angle of a prolecting rock the prince, at the head of his long cavalcade, heard a shriek and the splash of a body falling into the torrent far below. With a face white with horror he pulled up and, looking back, exclaimed: "The cook! The cook! Oh, do not tell me it is the cook!" "No, your excellency," cried a voice from the rear, "it is Don Prosdocemo." The prince heaved a sigh of intense relief, then said: "Ah, only the chap-

lain! Thank goodness!" Very Fine Handiwork. Dr. Heylin, in his "Life of King Charles," records that during the reign of Queen Elisabeth "there was one who wrote the Ten Commandments, the Creed, the Pater Noster, the queen's name and the prayer of our Lord of such an artificial making that by the help thereof she did plainly and

distinctly discern every letter." A somewhat similar feat was that "rare piece of work brought to pass by Peter Bales, an Englishman, who also exhibited before her majesty the entire many leaves as a full sized edition, but Barley—19 bushel....... 30 itting into a walnut."

flowers that grow on trees in Tierra del Fuego are described by a correspondent of La Nature, Paris. These Miss Clara Jacobson left Saturday for been forced through the bark and assumes various fanciful shapes, often those of the classical acanthus, seen on Corinthian capitals. The parasite that causes the growth is a relative of the
